Patron Reports

These are system reports only – you cannot limit to your library.

Display by:

- Patron Type gives you the number of patrons, by patron type, that have items currently checked out, the average number of items per patron, the number of items overdue, the number of patrons with fines and the total amount of those fines, as of the time you run the report.
- Item Type gives you the current number of checked out items by item type with the same information as above.
- Item Location gives you the current number of checked out items by item location, listed in alphabetical order, with the same information on number of overdues and fines.
