FAQs

- From a patron's perspective, is the experience the same for main collection & major studio content apart from the length of time that patrons have content access? ***Yes.
(One credit = 72 hours Main Collection versus 48 hours – Major Studio Content)
- From a patron's perspective, is full access to an entire season always the choice that is being made? Never just by single episode? ****The only providers that offer full season access to a series are BBC, A&E, and The History Channel. All others are 1 credit per episode. There are a few exceptions but not many.*
- Great Courses do not use credits, but patrons are limited to 1 course/month and access to that course lasts 30 days from the first lesson, not calendar month. ***Yes, correct.
- If we exceed our \$750/month, our patrons will stop having access to content until the 1st of the next month. ***Correct. *If you don't hit that \$750/mth cap then any remaining budget from that month rolls over to the next one, though.*
